# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **Northern Region**

Weak low pressure trough over the region will gradually retreat northward next 2 days. This afternoon, the atmosphere will still be unstable enough for an isolated shower or wet thunderstorm in our far Northern Mountains. Otherwise high pressure gradually building in with warming and drying Wednesday-Friday with near seasonable temperatures and humidity. Some northerly winds will develop Wednesday-Thursday across the Sacramento Valley and lower foothills, accentuating the drying with poor overnight relative humidity recoveries. However, a big patterns change possible this weekend. Latest models are developing and tracking Hurricane Dolores up the Baja coast, along with a vast area of tropical moisture. Our last 2 model runs have showed an area of widespread tropical showers pushing across the area from Sunday-Monday from south to north. As always, lots of uncertainty with tropical systems, but it appears fairly certain that cooler and more humid conditions are likely this weekend, along with increasing possibilities of wetting rains across our mountains.

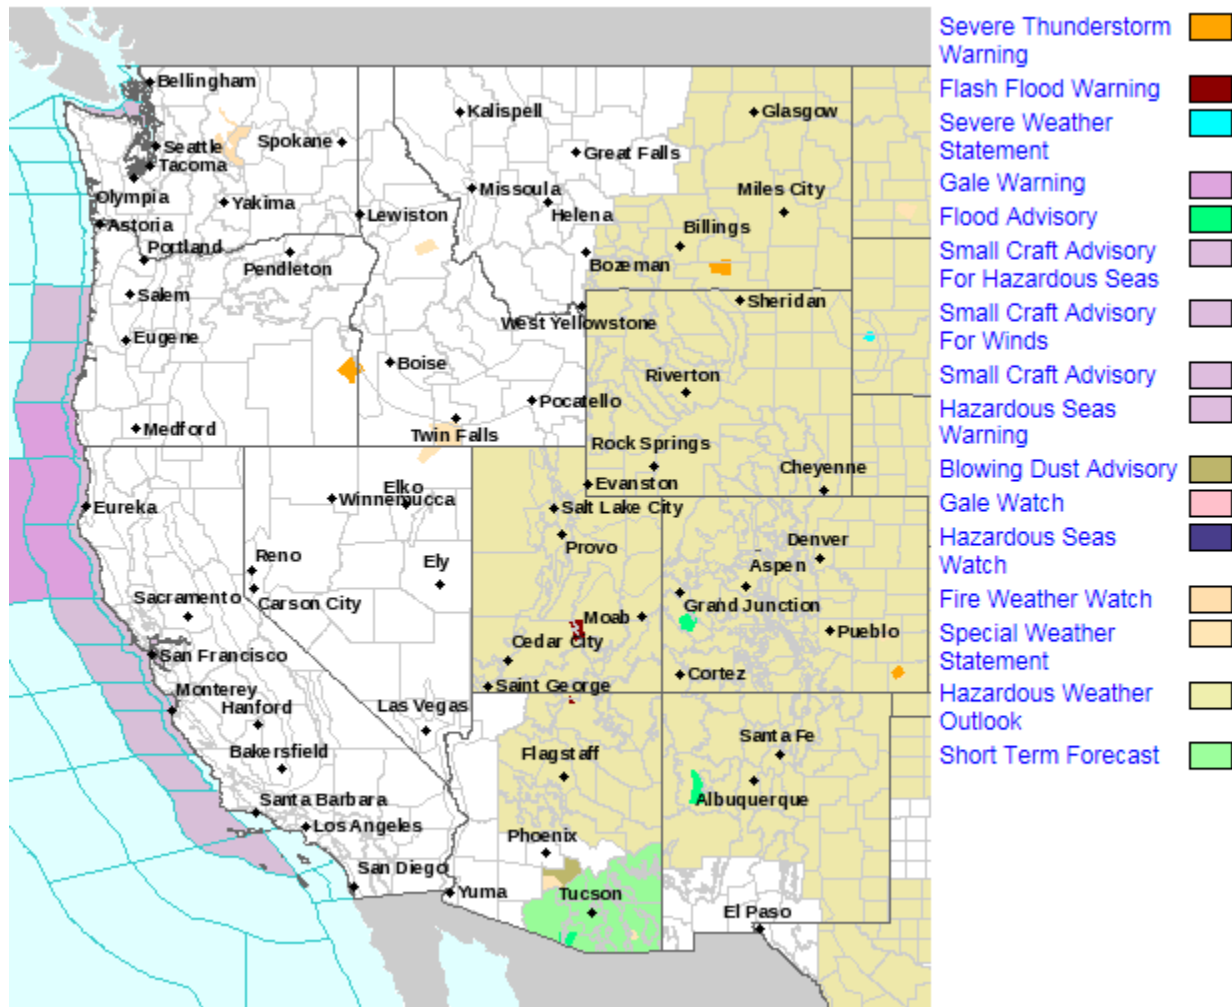

### **Southern Region**

A weak trough will remained aligned across the state through the end of the workweek. This will lead to daily rounds of night and morning stratus along the coast with breezy conditions in and near the deserts. Temperatures will remain near seasonal averages with highs in the 70s along the coast and in the mountains above 6,000 feet, the 90s in the valleys to 110 in the low deserts. Winds of 15-25 mph with gusts to 40 mph will occur each afternoon across the Antelope Valley, Banning Pass, the eastern Cleveland National Forest as well as coastal areas near Vandenberg AFB. Minimum relative humidity will dip into the teens for 6-8 hours during the afternoon hours across mountainous areas above 6,000 feet. This weekend, a surge of subtropical moisture is expected to be steered into Southern California. This will lead to cloudy and much more humid conditions. Scattered showers and wet thunderstorms will be possible across Southern California Saturday and possibly the rest of the district Sunday into the first part of next week.

# SITUATION SUMMARY

## NORTHERN OPERATIONS FIRES

### Kasson, Vegetation Fire, San Joaquin County

Location: Kasson Road at Critchett Rd

Jurisdiction: Tracy FD and Lathrop-Manteca FD, LRA

Start Time: 07/14/15, 1315 hours

Per CAL FIRE as of 07/14/15 at 1756 hours:

- 50 acres grass and brush, 60% contained
- Slow rate of spread
- 81 Degrees, 37% RH, Winds west @ 9 mph, with gusts to 17 mph
- 1 Structure destroyed, threat to additional structures, and riparian areas of the San Joaquin River
- CAL FIRE providing Master Mutual Aid
- Commitment of CAL FIRE air and ground resources

### Cooley, Wildland Fire, Siskiyou County (Final)

Location: 5 miles North of the community of Montague on Cooley Rd

Jurisdiction: SRA

Start Time: 1757

Per CAL FIRE as of 7/14/15 at 0814 hours:

181 acres grass, 100% Contained

# SITUATION SUMMARY

## SOUTHERN OPERATIONS FIRES

### 241, Vegetation Fire, Orange County

Location of incident (Hwy 241, South of Santiago Canyon Rd)

Jurisdiction SRA

Start Time: 07/13/15 1059 hours

Per CAL FIRE, Cal OES Duty Officers, and ICS-209 as of 07/14/15 at 1709 hours:

- 214 acres, 90% contained
- Anticipated containment date: 7/15/15
- Forward fire progression has been stopped
- Two other/minor structures destroyed. 100 minor structures threatened at this time.
- Mop up and continue to improve lines
- Santiago Canyon Road will re-open by 2000 hours on 07/14/15
- Fire Management Assistance Grant (FMAG) was submitted on 07/13/15 at 1440 hours and after review by Cal OES, does not currently meet FMAG criteria and is on hold at this time.
- Resources: 14 personnel assigned

### DEER, Vegetation Fire, San Luis Obispo County (Final)

Location: Southwest of Lake Nacimiento

Jurisdiction: SRA

Start Time: 07/10/15 1241 hours

Per Cal OES Duty Officers and ICS-209 as of 07/14/15 at 0653 hours:

- 95 acres, 95% contained

# **SITUATION SUMMARY**

## **SOUTHERN OPERATIONS FIRES**

### **Lake, Vegetation Fire, San Bernardino County**

Location of Incident: Jenks Lake, Hwy 38, Barton Flats area

Jurisdiction: FRA

Start Time: 06/17/15 at 1600 hours

Per CAL FIRE, Cal OES Duty Officers and ICS-209 as of [07/14/15 at 1751 hours](#):

- 31,359 acres, 98% contained
- Patrol and monitor. Extinguish visible smokes. Perform suppression repair
- Resources: 180 personnel assigned

### **Medical/Health**

- Until Further Notice - The Mojave Desert Air Quality Management District has issued a Smoke Advisory for Yucca Valley and Morongo Valley due smoke from the nearby Lake Fire.

# **CAL OES 2014 DROUGHT**

## **Cal EOC Incident – 2014 Drought**

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Regions (Inland, Coastal, Southern) will consolidate and have one collective OA drought call Monday's at 1100 hours beginning 07/06/15 facilitated by the SOC.
